Windows

WORK EXPERIENCES

On-the-Job Trainee — 2025

Stafify BPO
- Full stack web development
- Areas covered (Payroll System, Geofence)

On-the-Job Trainee — 2022

Olongapo City Hall
- Encoding of employee data
- Technical assistance
- Logging of entries (leave, loans, etc.)

ACADEMIC PROJECTS

Payroll Management System — 2024 - 2025

A capstone project with a driving school as beneficiary. Made with Laravel and Angular.

Back End Developer
- Full control of the back end and database, also developed services and passing of logic in the front end
- Ensure computations are correct
- Flatten the results for efficient access (faster fetching of pay slips / payroll records)

Library Management System — 2023 - 2024

A Systems Integration and Architecture Project for Gordon College Library, consists of 6 systems with a centralized database, and is made with Laravel and Angular.

Lead Back End Developer, Database Administrator
- Ensure database would cover all of the subsystems
- Help different groups in completing tasks related to developing the back end of their subsystems

Student Violation System — 2022 - 2023

Made with Angular and vanilla php for backend, a system for maintaining and organizing student violations.

Main Full Stack Developer
- System architecture
- System functionalities and design

Live Quiz Game — 2022 - 2023

A live LAN game using Python and Sockets with ttkbootstrap library for design.

Solo Developer

EDUCATION

Gordon College — 2021 – 2025

Graduate of Bachelor of Science in Information Technology
